

Developing Oral language in the EY Outdoor Learning Area

The children have been using their oral language skills to retell familiar stories and fairytales. They explored the structure of a narrative and discussed characters and used adjectives to describe their qualities.

Off to the ball!

Will the shoe fit?

Telling Cinderella and
her ugly sisters,
"There is a ball at the
palace."

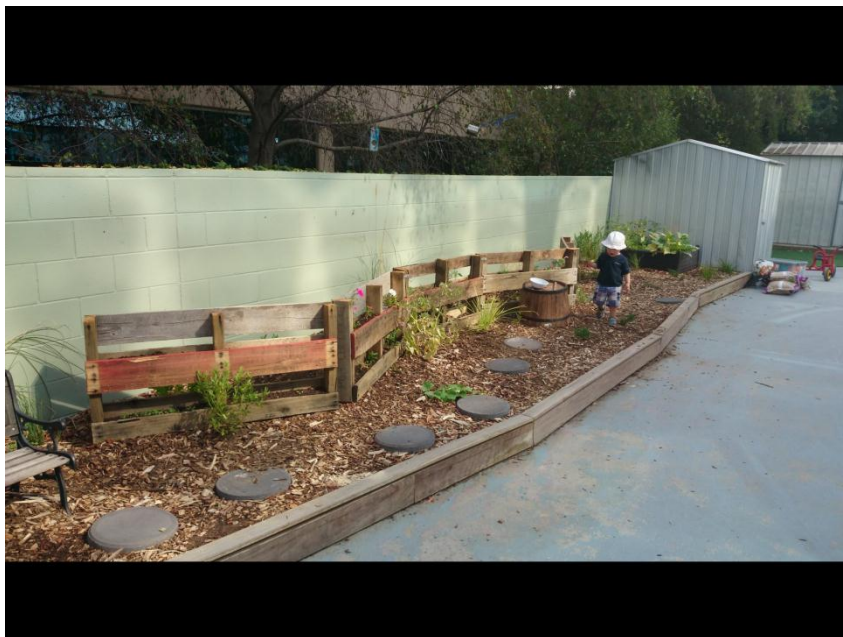

"Marry me?"
said the Prince.

Help Needed!

The Outdoor Area is so engaging for our younger students and the area has progressed so much in a short time with our garden beds, storage in the cubby and planned Bug Motel! Let's keep up the momentum and make this space amazing!

We are looking for help to start the next phase in our Outdoor Area. The children would like a 'Musical Garden' and a 'Fairy Garden.' We are looking for help to design and make some raised beds with plants and to put in some areas with different textures as pictured across.

If you are able to help us plan, make or design this area please see your child's teacher and we will show you our ideas and plans so far. We do have a budget to get items and time if required.

We have bought some bamboo to create our own musical wall and have collected pots and pans to create lots of noise! If you are able to assist in putting this together please see Lynne Tasker.
