

During the last week of term the reception children in room 14 & 15 planned a campfire. Our vegetables had grown ENORMOUS and we needed to eat them! The children decided we should make a soup with our vegetables and it was suggested we cook on an open fire.

The children discussed the safety issues and we made rules for the campfire. The children worked cooperatively moving logs and wood to form a circle around the proposed campfire site.

On the day of the campfire, Mrs Gray came in and helped to light the fire. The children began selecting and pulling up vegetables from the garden beds outside.

## Room 14 & 15 Campfire

The children washed the produce outside under the tap.

Then each child used knives to cut the vegetables into small pieces and added it to the pot!
